## FIRM TONE IN GRAIN ON CHICAGO BOARD

Provisions Weak on Persistent Selling by the Local Traders.

CHICAGO, June 2.-Reports of damage by drought to the fall-sown crop caused a strong local wheat market today. At the close the July delivery was up 40%. Corn was up 4. Oats showed a gain of 40%. Provisions were 714 to 10c lower.

With the exception of a slight weakness in the first few minutes' trading, sentiment in the wheat market was buillah all day. At the start there was some profit-taking due to favorable weather conditions, but offerings were early taken by commission houses, and before the end of the first half hour all of the initial loss had been recovered. Throughout the remainder of the session the demans by commission houses and pit traders continued active. Offerings, however, were light. The statement of a Chicago statistician that the winter wheat crop of the United States had deteriorated four points during the month of May strengthened the market. Later a number of damage reports from Kaness caused additional strength and the market closed firm. July opened a shade to 1974 lower at 1975 to 20%, advanced to 31% and closed at \$11%.

Trading in corn was active and the market was firm. Offerings were scarce until late in the day, when considerable profit-taking developed because of an estimate of liberal local receipts on Monday. The close was firm. July opened a shade hower to a shade higher at 1915 to 16, sold at 49% fits and then advanced to 50%. Final quotations were shade higher at 1915 to 16, sold at 49% fits and then advanced to 50%. Final quotations were shade higher at 1915 to 16, sold at 49% fits and then advanced to 50%. Final quotations were shade higher at 1915 to 18, sold at 49% fits and then advanced to 50%. Final quotations were shade in the market. July opened unchanged to 4% belower at 33% to 23%, and advanced to 31% final day because of persistent selling by local traders. At the close July pork was off 10c at \$16.00; lard was down 10c, and ribs were Tec lower. The Board of Trade will be closed Monday, June 4, election day.

New York Stock Letter.

James A. Pollock & Co., bankers and brokers, 6 West Second South street, received the following stock market letters from their New York correspondents over their private wire yesterday afternoon.

Logan & Bryan say: Market closed strong in all departments. Trade continues slow and is largely professional but undertone of the market seems in no way impaired. We continue to look for a trading affair but as we said yesterday, the tendency seems upward. We feel would buy good stocks on reactions but accept reasonable profits."

Dick Brothers say: "Although dull and professional, the stock market has been quite strong today. The bank statement was not as good as expected, showing an increase in loans, a decrease in surplus and only a small gain in cash. No important news. St. Paul's spurt was based on rumors of substantial subscription rights. Another strong feature was rather aggressive buying. At the closing the market was firm and quiet." New York Stock Letter.

# THE STOCK MARK

Fluctuations Have Taken Place Only in the Special Issues.

DULLNESS CAUSED BY FINANCIAL HOLIDAYS

Crop Prospects Have Much Influence on Course of Market.

NEW YORK, June 2.- The narrow pro fessional limits of the dull stock marks this week has been attributed partly to the discouraging effect of holiday interruption upon the disposition in street to speculate. It is believed, how ever, that doubts of the ulterior pros pects in the money market are a sub stential influence on the lethargy of the present speculative demand. Immediate conditions in money grow easier with the large reflux of cash from San Francisco and with the completion of the week's large special transactions in the New York money market. The firm tone at advancing rates for loans carrying over

York money market. The firm tone at advancing rates for loans carrying over the end of the year indicate a degree of anxiety over the sufficiency of money resources to carry through the fall cropmoving period without stringency. The interruption of the mid-week holiday and the prospective Saturday and Alemany holidays in London have been offered as nominal causes for the extreme duliness ruling in the stock market this week, speculative operators dreading a scason of closed markets owing to the lack of opportunity at such times to act promptily on sudden developments. Commission houses complain of an almost entire lack of interest in the market upon the part of the outside general public. Dealings have been made up of professional ventures, and the resulting movements were not convincing as a reflection of any genuine changes in the ownership of securities. These professional operations have been congested in a handful of issues, and the wide and rapid movements in these have had little effect by sympathy on the general body of the market. Prices have drifted listically and with constant fluctuations outside of these special stocks, and were not carried far from the pre-existing level at any time. Some of the events of the week were of important bearing on financial conditions, but they were of no effect in stimulating stock market activity, and the causes of the hesitation and uncertainty of the speculative sentiment are supposed, therefore, to lie geope.

or no effect in stimulating stock market activity, and the causes of the hesitation and uncertainty of the speculative sentiment are supposed, therefore, to lie deeper.

The inauguration in force of the return flow of currency from San Francisco was accepted as significant of the passing of the financial crisis following the successful reopening of the banks there. The release of the piled up cash reserves there to provide for the emergency caused by the enormous property losses due to the fire is expected to have a material effect in easing the money situation in the whole country. At the same time the resumption of normal business conditions will not be complete until the extra holidays, which have been made consecutive by proclamation of the Governor ever since the earthquake, shall cease, which will be on June 4. This period is awaited for more exact indications of the business situation. The data for proving insurance losses has also been extended to sixty days beyond June 18, and the adjustments in this field will be necessary to define exactly the financial issuus not only of the cialmants, but of the insurance adjustment to determine the final financial loss of the great disaster. In the same way the easier conditions in the money market, which are expected this month, are obscure in their influence on the stock market by the ulterior prospect, which is uncertain. The large paymente this week, including the \$6,000,000 Pennsylvania note Issue, the June 1 settlements and the Chicago & Northwestern stock subscriptions, have been concluded without damaging disturbance in the money market, partly due to the replacing in all loans of the money market, But the tone of the time money market for loans which will supply resources through the fall and into the new year, reflects a desire to keep resources through the fall and into the money market for loans which will supply resources through the fall and into the money market for loans which will supply resources through the fall and into the money market for loa

the present investment demand for bonds and newly-issued securities is a weight upon the prospect. Current reports of a loan in Paris to the insurance companies to finance their San Francisco losses and of an extensive note issue there of St. Faul pledges to finance that road's Pacific coast extension have failed of authoritative confirmation.

The prospect for the crops will be of increasing influence upon stocks from this time forward, whether for improvement or depression. The crop promise has not been unfanvorable to stock values up to this time.

this time.

The prospect of a Congressional campaign this fall is not left out of the account in estimating the speculative outlook in stocks. Owing to the prominence of the questions of corporation abuses and the prevalent disposition toward agitation against these and against corporation privileges some anxiety is felt for the possible directions which may be taken by these forces and for the possible damage which may result to market values of corporation securities.

Bonds have been dull and for the most part heavy.

# Low Rates Extended Until Further Notice!

\$1.00 A Treatment-Or \$15 for a Complete Cure of All Catarrhal Diseases to All Who Apply at Once.

Although Drs. Shores fully intended to withdraw the cheap rate for their New Treatment June 1st-and thereafter charge a moderate fee which would allow a fair profit to them, yet the Doctors were so overwhelmed with applications for treatment on the closing day, that there were only two courses open to them, either to arbitrarily refuse many applications and thus disappoint many sufferers, or generously grant an extension of the offer, and thus give everyoe a chance to be cured for \$1 a treatment or \$15 for the Complete Cure of any Catarrhal discase,

#### One Treatment Convinces the Most Skeptical.

The greatest wonder and surprise is being manifested by those who have tried the NEW TREATMENT, and even the most skeptical are convinced in a single treatment of the wonderful effects of Drs. Shores' discovery. An immediate sense of relief is experienced, the nose becomes free, the breathing natural, headaches disappear, recent colds are cured often in one treatment, and everyone goes away pleased and talking about the New Treatment.

#### Remember This Special Offer Is Limited—You Must Apply at Once.

Drs. Shores will not take more cases at this low rate than they can properly handle and thoroughly treat, and as the crowds are becoming larger every day, as the news of the many marvelous cures spreads among the people, you had better apply for treatment at once, and be SURE of securing treatment at these low rates; \$1 a treatment or \$15 for a cure for any Catarrhal disease to all who apply at once. Consultation and advice free and confidential for any disease.

#### \$15 FOR CURES AT HOME.

Drs. Shores have arranged to furnish all patients who are unable to visit the office with Special Instruments for using their new treatment at home. These instruments, together with all medicines, for a complete cure of any Catarrhal disease, will be furnished for \$15. If you can not visit the office for treatment, write for symptom blanks and take advantage of this special offer and be cured at home for \$15 for any Catarrhal disease, all medicines and instruments FREE. Remember Drs. Shores also cure at Home all other curable Chronic Nervous and Private diseases. Prices and terms low and uniform, within the easy reach of all. Write for symptom list, Consultation and advice free and confidential for any disease,

#### ANOTHER EXAMPLE OF DRS. SHORES' SKILL.

READ THE HONEST TESTIMONY OF THIS GENTLEMAN, THEN GO SEE HIM AND ASK HIM ABOUT HIS EXPERIENCE

Mr. Scott says. "I have suffered from a complication of Catarrhal disease for five or six years. My stomach distressed me, my appetite was poor, my eyesight affected, had earache, and my head ached CONSTANTLY in spite of all I could do, and my night's rest was always broken. I have treated with the most eminent Doctors in the United States, without relief. I was under the care of the most noted specialists in Denver for seven months, and got absolutely no relief, although I spent lots of money on treatment. Two months ago I came to Drs. Shores & Shores and began their treatment IN ONE WEEK
I FELT BETTER, and have steadily
improved since, and today my stomach
is all right. I sleep better than for
years, my terrible headaches are almost entirely a thing of the past, and I can honestly say that Drs. Shores have done me more good in two months than all the doctors and medicines I have used in six years, and I want to tell everybody who suffers all about my case." (Signed.) "PERLEY K. SCOTT."

#### A SPECIAL DEPARTMENT FOR MEN.

Drs. Shores have a Special Department exclusively for the treatment and cure of all diseases of Men, whether caused by ignorance or excesses. You may consult Drs. No matter what your trouble is, or who has falled to cure you, consult these Master Spe-cialists, free of charge, and learn how you can yet be cured. CALL OR WRITE.

WEAK MEN.

So-called "Weakness" in men is merely a symptom of chronic inflammation in the prostate gland, brought on by early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is therefore, a question of restoring the prostate gland to its normal state, and this we accomplish promptly and completely without the use of internal remedies. Our treatment is a local one entirely. It is original and scientific, and has been proved absolutely effective by thousands of tests. We are convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished.

#### WE TREAT AND CURE.

Spinal Trouble, Skin Diseases, Sci-atica and Rheumatism, Diseases of the Bowels, Piles, Fistula and Rectal Troubles, Goltre (or Big Neck), Blood Diseases, Tape Worm, Hay Fever, Hysteria. Epilepsy, Insomnia, etc., and all curable Nervous, Private and Chronic Diseases.

### UTAH BERRIES ARE COMING IN NOW

Small Shipment Arrives on Saturday to the Delight of Market Men.

Business on the local market Saturday was good, notwithstanding the scarcity of several products. The shipment of Missouri straw-berries due to arrive Saturday came in on schedule time. The berries were in good con-dition when they reached here and every crate was taken upon arrival by the retailers.

First Utah Fruit Here. One little surprise of the day was the arrival from Mill Creek of six crates of Utah strawberries, the first of the season. The shipment of six crates did not in itself amount to much, but it was gratifying to the market men to see that the home product was really getting ready for the market. The crop has received several setbacks on account of disagreeable weather.

Utah Vegetables Arrive.

New home-grown peas and beets were fea-tures of the market Saturday. No great sup-ply of either vegetable was received, but there will be more in the market in a few days. The peas sold for 15 cents a pound or two pounds for 25 cents. The beets run three bunches for The fish situation Saturday was about the same as it has been for several days past, being to rains on the coast and the washouts in route fish of all varieties was scarce Satur-
